

2007-01-10 1/1

JAN. 10, 2007 Bob Dillberger, Florence Roberts, Ann Moser,
Bob Caschella, Anna Taiello, Liz Fletcher

Steve Mohelan is ill and did not attend.

Si Little was very concerned about the Fifield house preservation easement. The commission would be more comfortable having the inspection of House (monitoring) done by an expert because many things can be done without a building permit (ie window replacement, siding, foundation, roof etc). Marty Mailbovits can be hired to get the expert guidance on major renovations. Otherwise the CC can monitor yearly.

I finished RFP Patter G-82/82 LL Rev. Will send final version to Chris Guing for review. Then send out package to 4 surveyors.

Meridian bill for \$872.50 has been received for sending 8 Man packages to all interested parties. We will wait for final bill before paying.

Damon battery took away 26 batteries from Bronson's house! We will ask Jeff Lashua to remove the cars.

Voted to submit same warrant ^(#3) article for 100K as last year. Liz will submit. Voted in unanimous.

Wally will fix windows for \$350. I will give him the key or will get from Dave Baker.

Bob will contact owner of B-17-4 about marking Prop lines because of complaints from Pam Lassen and Martha Jacques. Dog is biting other dogs. Will also ask about wt flags over prop line.
