

NH-DES documents related to KM/TGP NED project

as organized in http://www.Mason-NH.org/NH_DES

Compilation by Garth Fletcher, Mason, NH 03048

Tennessee Gas Pipeline Company submitted a Clean Water Act Section 401 Water Quality Certification application in November 2015 to NH DES.

The following information was released by DES in March, 2016, in response to a NH statute 91-A (“Right-to-Know”) request from the *NH Municipal Pipeline Coalition*.

It consists of almost 3,800 MB of data organized in 500+ files and directories, The information broadly falls into the following 3 categories. each of which is inventoried below:

Emails (363) email attachments if any

The 401 application with its attachments

Miscellaneous other files not part of the 401 Application nor of emails

Emails (363), some with attached files

NHDES_EMAIL_TXT_ALL.pdf 1.6 MB

Text of all the emails which I have collated into a single PDF, in date order, but not necessarily in time order within a date, i.e., afternoon emails might come before morning emails of the same day. Where the emails contained attached files, these files are saved in separate folders created within EM_TXT/ and the name of the folder and files within are appended to the email text.

EM_MSG/ {emails in original Microsoft Outlook .MSG format, as provided by NH DES}

EM_EML/ {converted to .EML format plus date prefix (yyyy_mm_dd) added}

EM_TXT/ {converted to .TXT format with attachments moved to separate folders within EM_TXT/ }

list of attachment folders & contents at **EM_TXT attachments** (at end of inventory)

The 401 application with its attachments

CWA water quality certification app.pdf65.6 MB

Temp Permit Application, New Ipswich.pdf34.2 MB
