Old Business

New Business

The board is planning to research other town's organization of Zoning, Subdivision and Site Plan Review regulations with the aim of updating Mason's regulations. The board is planning working meetings, but will need an internet connection to do this. As the board has no access to the town's internet, the town needs to provide a means of access, such as a wireless router. Otherwise, the meetings will need to be held off-site at a private home, which opens up issues regarding public meetings and the Right-To-Know law.

One of the items to be studied is the Nashua River Watershed Association's new handbook, the "Low Impact Development and Stormwater Management Toolkit". Another focus will be updating the Subdivision Regulations to provide a more comprehensive and consistent review process.

Notes

Homework: Look over Subdivision Regulations from Temple, Wilton and Milford.

Adjourn

Pam makes a motion to adjourn. Linda seconds. Meeting is adjourned at 8:50.
